**NE corner Section 13**  
 Found end accepted a 1" iron pipe with brass Simpson timber cap as per reference survey # 10 (2011)

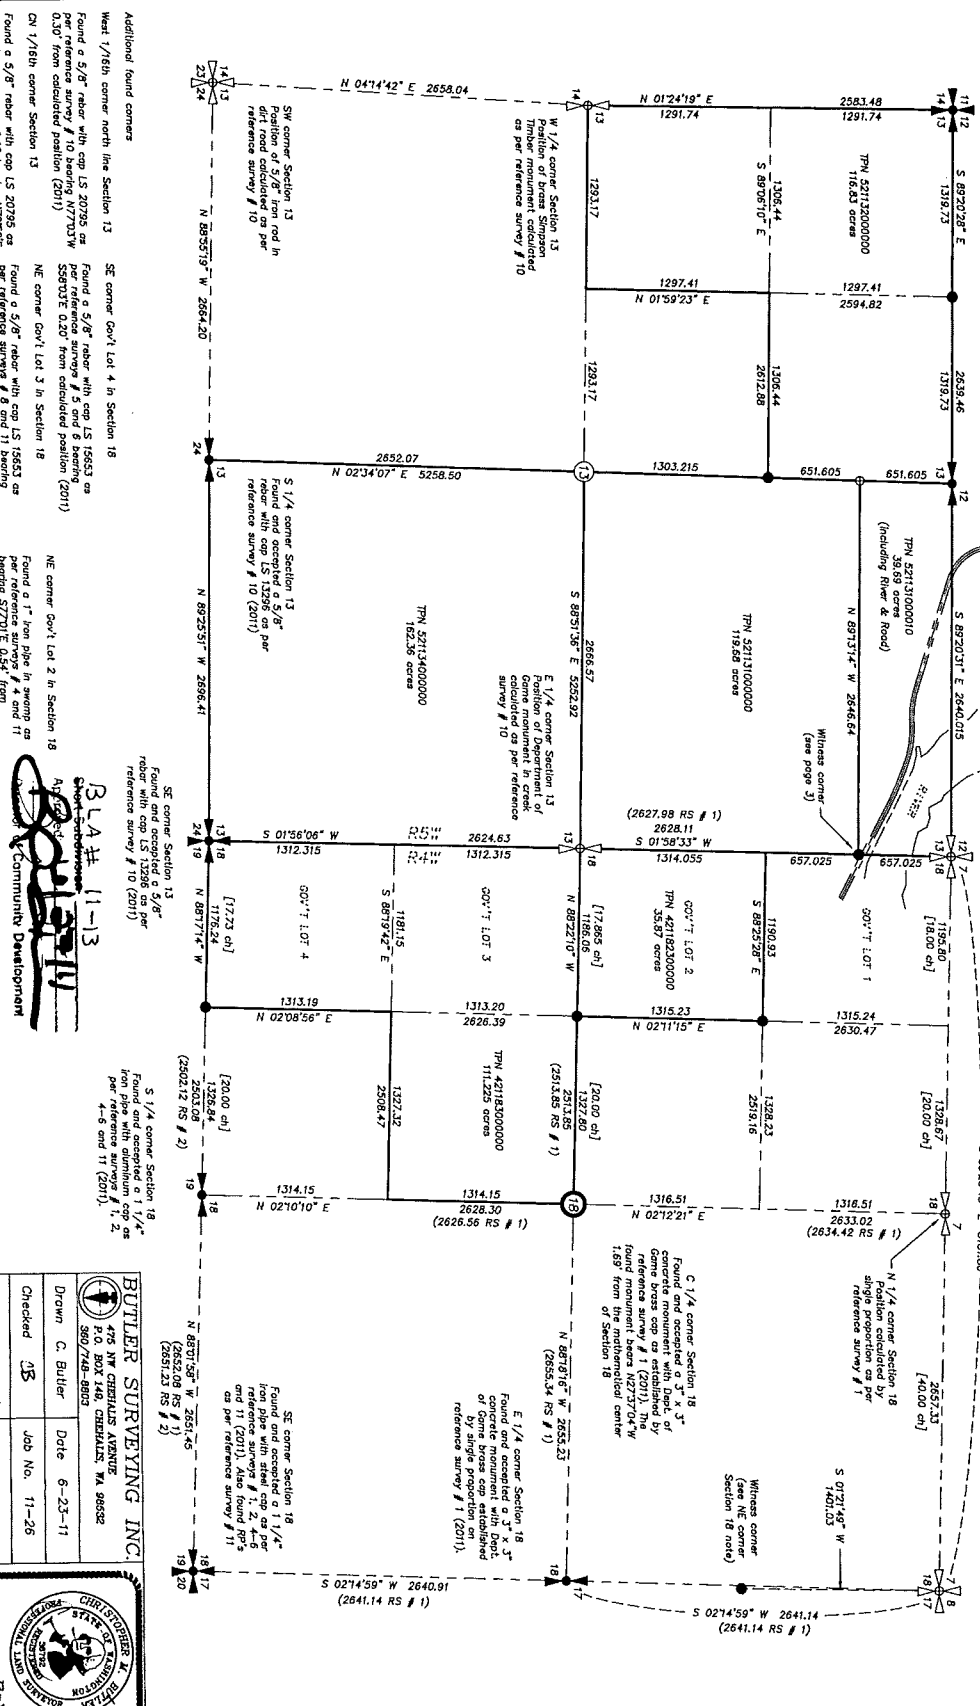

**NE corner Section 13**  
 Found end accepted a 1 1/4" iron pipe with brass Simpson timber cap as per reference survey # 10 (2011)

**NE corner Section 13**  
 Washington State Survey # 11. Solid position has been accepted by multiple surveys of record. This survey accepts the position calculated by holding the monument of Corner distance as depicted and the monument of Corner distance as depicted on reference survey # 10

**NE corner Section 13**  
 Single proportion position established by Washington State Survey # 11. Solid position has been accepted by multiple surveys of record. This survey accepts the position calculated by holding the monument of Corner distance as depicted and the monument of Corner distance as depicted on reference survey # 10

**NE corner Section 18**  
 Position falls in the Skokholm River, not set. The corner was established by double proportion survey # 11. Solid position has been accepted by multiple surveys of record. This survey computes the position by holding the four monuments of the Southeast corner and E 1/4 corner of Section 18 on the north side of the river. Corner distance of the east line of Section 18 as depicted on reference survey # 11

**Also found a 3" x 3" concrete monument with a Department of Game brass cap in a 2-way fence corner on the north side of Skokholm Valley Road established as a witness corner on reference survey # 1 (2011). The found monument bears S 07°21'49" W 1401.33' and is 21.67' East of the east line of Section 18 as computed by this survey. It is unclear on reference survey # 1 whether the monument was intended to be on or off line whereas the South half of the east line of Section 18 was used to control the south half of the east line. For this survey it serves only as a distance check to the calculated NE corner of Section 18.**

**Stokomish River Note:** The South Fork of the Stokomish River passes through a portion of the subject property and there is no direct exemption for the River in any of the title documents pertaining to the subject property. The Stokomish River was deemed to be navigable the bed of the River would be the ownership of the State in the bed of the Stokomish River is "unknown". This is based upon the fact that there have not been any studies to determine ownership through this area. However, the State asserts the right of navigation for the public for recreational use over the bed of the Stokomish River should additional information be presented or if they are explicitly established at this time this survey includes the potential claim by the State of Washington is  $\pm 5.1$  acres based upon said mapping, but is subject to change with corrections and omissions of the River.

**Stokomish Valley Road Note:** Stokomish Valley Road passes through the subject property. After meeting with the Mason County Public Works Department, it was determined that (1) the County cannot exercise the right of way for the road. Rather, they stated that their rights could be only that of an easement for the existing improvements. However, there is also a viable claim of ownership within Mason County for the road by maintenance. As such, to avoid including property in the subject parcel that may be owned by Mason County the existing road was re-surveyed and an alignment was computed. From there a 30.00 foot wide right of way was established along the center of the re-built centerline in order to encompass the existing County improvements. The area contained in said right of way equated to 1.45 acres and may be subject to a claim of ownership by Mason County.
